January 2022

Transportation Coordinators:

Arizona law ([A.R.S. §49-588\(B\)](#)) requires all employers in Area A with 100 or more employees at a single work site to notify their employees of the Vehicle Emissions Inspection Program (VEIP) requirements ([A.R.S. §49-542](#)).

The Maricopa County Travel Reduction Program (TRP) is providing the accompanying notification to inform your employees of their responsibility to comply with Arizona VEIP laws. Please distribute this information to your work sites. Your organization may use this standard notification or develop an alternative notification process. Both an English and a Spanish version of the notification have been provided for your convenience. This notification information should be included with new hire information and/or addressed at new hire orientations.

If you have any questions regarding this notification requirement, please contact your Valley Metro Commute Solutions coordinator at 602-253-5000, or TRP at 602-506-6750.

If you would like more information regarding vehicle emission testing locations, costs, or exemptions, please visit myazcar.com or call the Arizona Department of Environmental Quality VEIP Hotline at 1-877-692-9227 (1-877-myAZcar).

Respectfully,

Maricopa County Travel Reduction Program
