

## The Rain is Coming Down the Mountain

(Sung to the tune of She'll be Coming Round the Mountain)

The sun makes the water evaporate to the clouds,  
The sun makes the water evaporate to the clouds,  
The sun makes the water evaporate, the sun makes the water evaporate, the sun makes the water evaporate in the cycle.

The clouds make the rain fall when they're full,  
The clouds make the rain fall when they're full,  
The clouds make the rain fall, the clouds make the rain fall, the clouds make the rain fall when they're full.

The flood is coming down the mountain when it rains,  
The flood is coming down the mountain when it rains,  
The flood is coming down the mountain, the flood is coming down the mountain, the flood is coming down the mountain when it rains.

Don't play in flooded basins when it rains,  
Don't play in flooded basins when it rains,  
Don't play in flooded basins, don't play in flooded basins, all the waste and dirt is in there when it rains.

Call and Respond  
(Sung to the tune of I saw a Bear)

I went out  
I saw a cloud  
Oh way up there  
A great big cloud  
I went out, I saw a cloud, a great big cloud oh way up there.

The cloud was gray  
And it looked full  
I think there's rain  
In that there cloud  
The cloud was grey and it looked full, I think there's rain in that there cloud.

I heard a noise  
It was loud  
Is it thunder  
What does that mean  
I heard a noise and it was loud, is it thunder, what does that mean?

I felt a drop  
Up on my head  
A great big drop  
Oh it was wet  
I felt a drop up on my head, a great big drop oh it was wet.

I went inside  
And told my mom  
We played some games  
Until it stopped  
I went inside and told my mom, we played some games until it stopped.

A great big flood  
Was in my park  
So much water  
Up to the slide  
A great big flood was in my park, so much water up to the slide.

Mom said no  
We cannot play  
No not today  
Just let it dry  
Mom said no we cannot play, no not today, just let it dry.

Now I am safe  
From all that water  
The sun comes out  
And takes it up  
Now I am safe from all that water, the sun comes out and takes it up.
